Thách thức

I am going to talk about a time when I overcame a challenge.

Well, **when** I first started university, I was very lonely. It was a hard time for me **because** I didn't know anyone. I was in a new city and everything was so new. It was **scary** and I felt **sad**. So, I **joined some clubs** and **tried to talk to people** in my classes. It was difficult at first, but I did it.

Cảm xúc

Moving on to the second question – how did I feel about that?

Actually, at first it was not easy because I was too shy, but everyone was friendly and we started to get to know each other. I felt much better after that. It took time, but I made some good friends. I joined the sport club because I love sports. I met new people and had so much more fun. It's easier for me to talk to people now!

Vượt qua thử thách

Regarding the last question – what can help people face challenges in daily life?

Honestly, I think the most important thing is to be brave. You need to try new things and talk to new people. Even if it's scary! It may pay off very well!"
